

Silly Season 6: Revenge of the Stunties

Tillåtna lag: Human, Elf, Slann, Underworld, Vampire, Ogre, Goblin, Halfling

Alla lag som möter Human, Elf eller Slann får ett Good Karmakort gratis, utan att det räknas till team value.

Dessutom har de tre klassiska stuntlagen varsin extra fördel:

Cheating Bastards (Goblins): Each of their turns, Goblin teams may use a seven sided die for one of the team's rolls. This roll may use one or two dice, but on a two dice roll, only one of the dice is replaced. (Remember that a 7 isn't a natural 6, so a roll that only is successful on a natural 6 fails on a 7)

Uncountables (Ogres): The Ogres may field up to 16 players at the start of each drive. (They can still only have 16 players on their roster)

Flying Circus (Halflings): Each turn, Halfling teams may take up to two pass actions. All landing rolls made by a Halfling team are automatically successful.
